The seasonal conditions are not very satisfactory due to failure of rains and separate special fortnightly reports are being sent to Government and to the Revenue Commissioner.

11. Cattle are reported to be generally healthy in the district except for the prevalence of "Blackquarter" at Hanumanthapura of Jagalur Taluk and at Attimage of Hosadurga Taluk. Necessary preventive measures are reported to have been taken by the Veterinary Department to check the spread of the disease. Water is available throughout the district except in some parts of Challakere. Necessary action is being taken to provide water by sinking fresh wells and deepening existing wells. For fodder, most of the State Forests are thrown open for free grazing. Some of the Amrithmahal Kavals in Hosdurga, Holalkere and Challakere taluks have also been thrown open for free grazing. Karada grass is being obtained from Shimoga District and is being distributed to several needy centres. Pressed hay from Yesavantanagar has been received and stocked.
